Walker Bag Pattern

Instructions:

Fabric Selections:

- Cotton twill, poly-cotton blends, upholstery fabric, or any heavier densely woven fabric works best.
- Sew with ½" seams.

Cutting Instructions:

- Cut 2 rectangles 18" x 14" for the front and back.
- Cut 1 rectangle 18" x 9" for the pocket.
- Cut 2 rectangles 10" x 6" for the button tabs.

Finishing the Edges:

- Fold edges down ½" and press.
- Fold down another 1 ½" and press.
- Sew with a straight stitch on top of the fold.

Pocket:

- Lay pocket along the bag front; align pocket with the bottom edge and pin.
- Mark the center line and sew from bottom to top creating two sections.
- At the top edge of the pocket reinforce the stitching line to prevent the pocket ripping.

Button Tabs:

- Fold the 10" x 6" rectangles in-half lengthwise with right sides together.
- Sew along the long side and across one end, turn, and press.
- Zigzag the unfinished end of the two tabs.
- Place these tabs 2" in from the side and 1" down from the top edge of the back. This should make an 8" flap. Make sure they are the same length, or the bag will not hang straight.
- Sew an X on the rectangle for reinforcement.

Final Assembly:

- Place the front on top of the back, right sides together.
- Sew the sides and bottom at least twice for reinforcement.
- Zigzag or serge the raw edges.
- Sew buttonholes at least ½" from the end of the tabs.
- Sew the buttons on the front to match the buttonholes, use stabilizer if necessary.
